uRsuLA futuRA IS OUR  
ALTER EGO. THE ONE WHO  
DARES.WHO FOLLOWS INTUITION  
OVER CONVENTION. WHO DOESN'T  
ASK FOR PERMISSION.  
WHO FINDS LIGHTNESS  
IN COMPLEXITY. POSSIBILITY  
IN THE UNEXPECTED. URSULA  
IS THE PART OF US THAT PLAYS,  
EXPLORES, INVENTS.  
uRsuLA futuRA IS IN ALL OF US.

Ursula Futura is a creative universe, a studio where glass is transformed into expressive objects that shift perspectives on the everyday. Each piece is conceived as both functional design and sculptural statement, blending bold form, color and craftsmanship into objects that spark curiosity.

The brand was born from an alter ego: Ursula is the fearless counterpart who dares to push ideas further, to experiment, to reimagine rituals and surroundings with humor and intensity. This spirit runs through every project, from collectible glassware to large-scale collaborations and lighting concepts.

At its core, Ursula Futura is about emotion over perfection, about celebrating curiosity, play and the poetry of materials. Each object becomes an invitation to see the world with different eyes.

Kathrin Zelger is the founder of Ursula Futura, a design studio that explores glass as a medium for shifting perspectives. Fascinated by the magical material and its water-like properties, its fragility and at the same time its strength, Kathrin made it the focus of her creative practice. Her approach is driven by curiosity and impulse, embracing the glass' fluidity and unpredictability to create objects that feel both futuristic and familiar.

The making process is often impulsive and unfolds in close collaboration with the best artisans, which she sees as a dialogue between concept, material, and craft. Through Ursula Futura, Kathrin channels a fearless alter ego that dares to question conventions. Her work blends precision with play, inviting people to encounter the ordinary with fresh eyes.

uRsuLA futuRA, OBJECTS THAT SPARK JOY. DESIGN PIECES THAT TAKE CENTER STAGE IN ANY SPACE. CRAFTED BY HAND, SHAPED WITH INTENTION. EACH PIECE IS UNIQUE. OUR WORK COMBINES HIGH-QUALITY CRAFTSMANSHIP WITH EXQUISITE FORMS AND HYPNOTIZING COLORS.

INSPIRED BY NATURAL PHENOMENA, THE COLLECTION CREATES A UNIVERSE OF MAGIC AND REFLECTION. EVERY OBJECT CARRIES ITS OWN ENERGY, ITS OWN STORY. A BOLD AND POETIC PRESENCE.

### Designer of the Day: Kathrin Zelger

Glassblowing is an inherently experimental practice—and Kathrin Zelger approaches the art's ever-changing nature with refreshing confidence. Under the gaze of her alter-ego, Ursula Fanzca, the Vienna-based artist captures the mystery and magic of glass's manne-like properties, infusing each of her spirited objects with curiosity-piquing touches that reflect the material's strength, fragility, and ability to surprise attention.

PLASH CARAFE SOFT BLUE,  
GREEN & AUBERGINE

PLASH CARAFE

**The PLASH Carafe** - Part of the PLASH family, this mouth-blown carafe draws on retro forms with a contemporary twist. Its crater-like silhouette makes it equally suited for serving drinks or as a vase for flowers. Designed to mix and match with the PLASH Glasses, it brings a touch of nostalgia to any table.

Available in 4 colors.

**The PLASH Glass:** Mouth-blown, crater-shaped glassware blending retro vibes with contemporary flair. From Swirly Browns to vibrant Hoppy Greens and Opal Blues, each piece invites the sun to dance and reflect. Adding a touch of elegance and charm to every sip.

Available in 4 colors.

The **ECLIPSE Vase** is a fusion of colors and an exploration of perception. Meticulously crafted with carefully carved windows, it reveals a play of contrasts, as vibrant colors meld into one another. Depending on the angle at which you view the vase, the openings reveal glimpses into the opposite color or what may lay behind. Experience an interplay of light, colors, and the chromatic richness of glass.

Available in 2 sizes and different colors.

Wind shapes nature. This impulse determines the manufacturing process of the **PHANTOM Dish**, in which each vessel is formed solely by the exhalation and inhalation of the glassblower. Detached from the ideas of the designer, true one-offs are created. Guided only by the game of breath and glass.

Available in 5 colors.

FUTURA VASE

#### ANDREA KOLLAR x URSULA FUTURA

The Futura Vase collection emerges from a dialogue between Ursula Futura's playful, fluid design language and Andrea Kollar's artistic perspective on femininity. While Ursula herself remains ever-changing and intangible, the Futuras embody her spirit, each taking form as an expression of womanhood.

Built around a shared core, the vases are distinguished by unique additions and vibrant colors, celebrating individuality and character. The collection translates the collaborative vision of both studios into tangible, joyful objects.

Available in 5 different variants.

Like a blown-up chewing gum about to burst — the color gradient of the **BUBBLE Vase**. Handmade and unique every time. A game with transparency and opacity.

The **WET Bowl** is a poetic representation of the surface tension of natural water pools. Refined curved shapes and surfaces covered with a layer of crystal reflect the light in a way that one can only guess at the depth.

Available in 3 sizes and many colors.

EYE VASE

EYE VASE MEDIUM BLUE

The **EYE Vase** - Painted Eyes. The magic of gestures and gazes. The subtle bearers of emotions, captured in glass. A sculptural object as if painted with watercolors. Each vase is a unique interpretation, crafted from crystal glass. A soft champagne body and gentle colored eyes offering a tender gaze.

Available in 3 sizes and 3 colors.

BOUNCE EGG CUP BLUE,  
BROWN & ORANGE

**BOUNCE** - Mouth blown, solid egg cups. As if the egg bounced into a ball of glass and left the perfect little cove for itself to nest comfortably. An object ready to not only hold your egg but whatever your creative mind can think of - oranges, burrata ball, arancinis.

Available in 3 colors.

Grass frozen in ice bends in different directions like wondrous creatures. One moment held. A crystal carafe like a wondrous being — the **NESSIE Carafe**.

Available in 5 colors.

IMPRINTS VASE

IMPRINTS VASES OLIVE  
GREEN & MANDARIN BLUE

The **IMPRINTS Vase** captures a fleeting gesture in glass. Each piece is crafted in colored glass and finished with a contrasting wax-like stamp that bears a symbolic mark. This imprint, reminiscent of a moment sealed in time, transforms the vase into both vessel and signature, turning a functional object into a poetic statement.

Available in 3 different colors.

**SIBONEI x URSULA FUTURA**

Introducing the **IMPRINTS Candles**, a scented candle collection created in collaboration with Sibonei. Each piece is crafted in colored glass, sealed with a wax-like stamp in contrasting tones, carrying a symbolic imprint. These marks transform every vessel into a signature, a gesture preserved in glass.

Available in 2 different colors and scents.

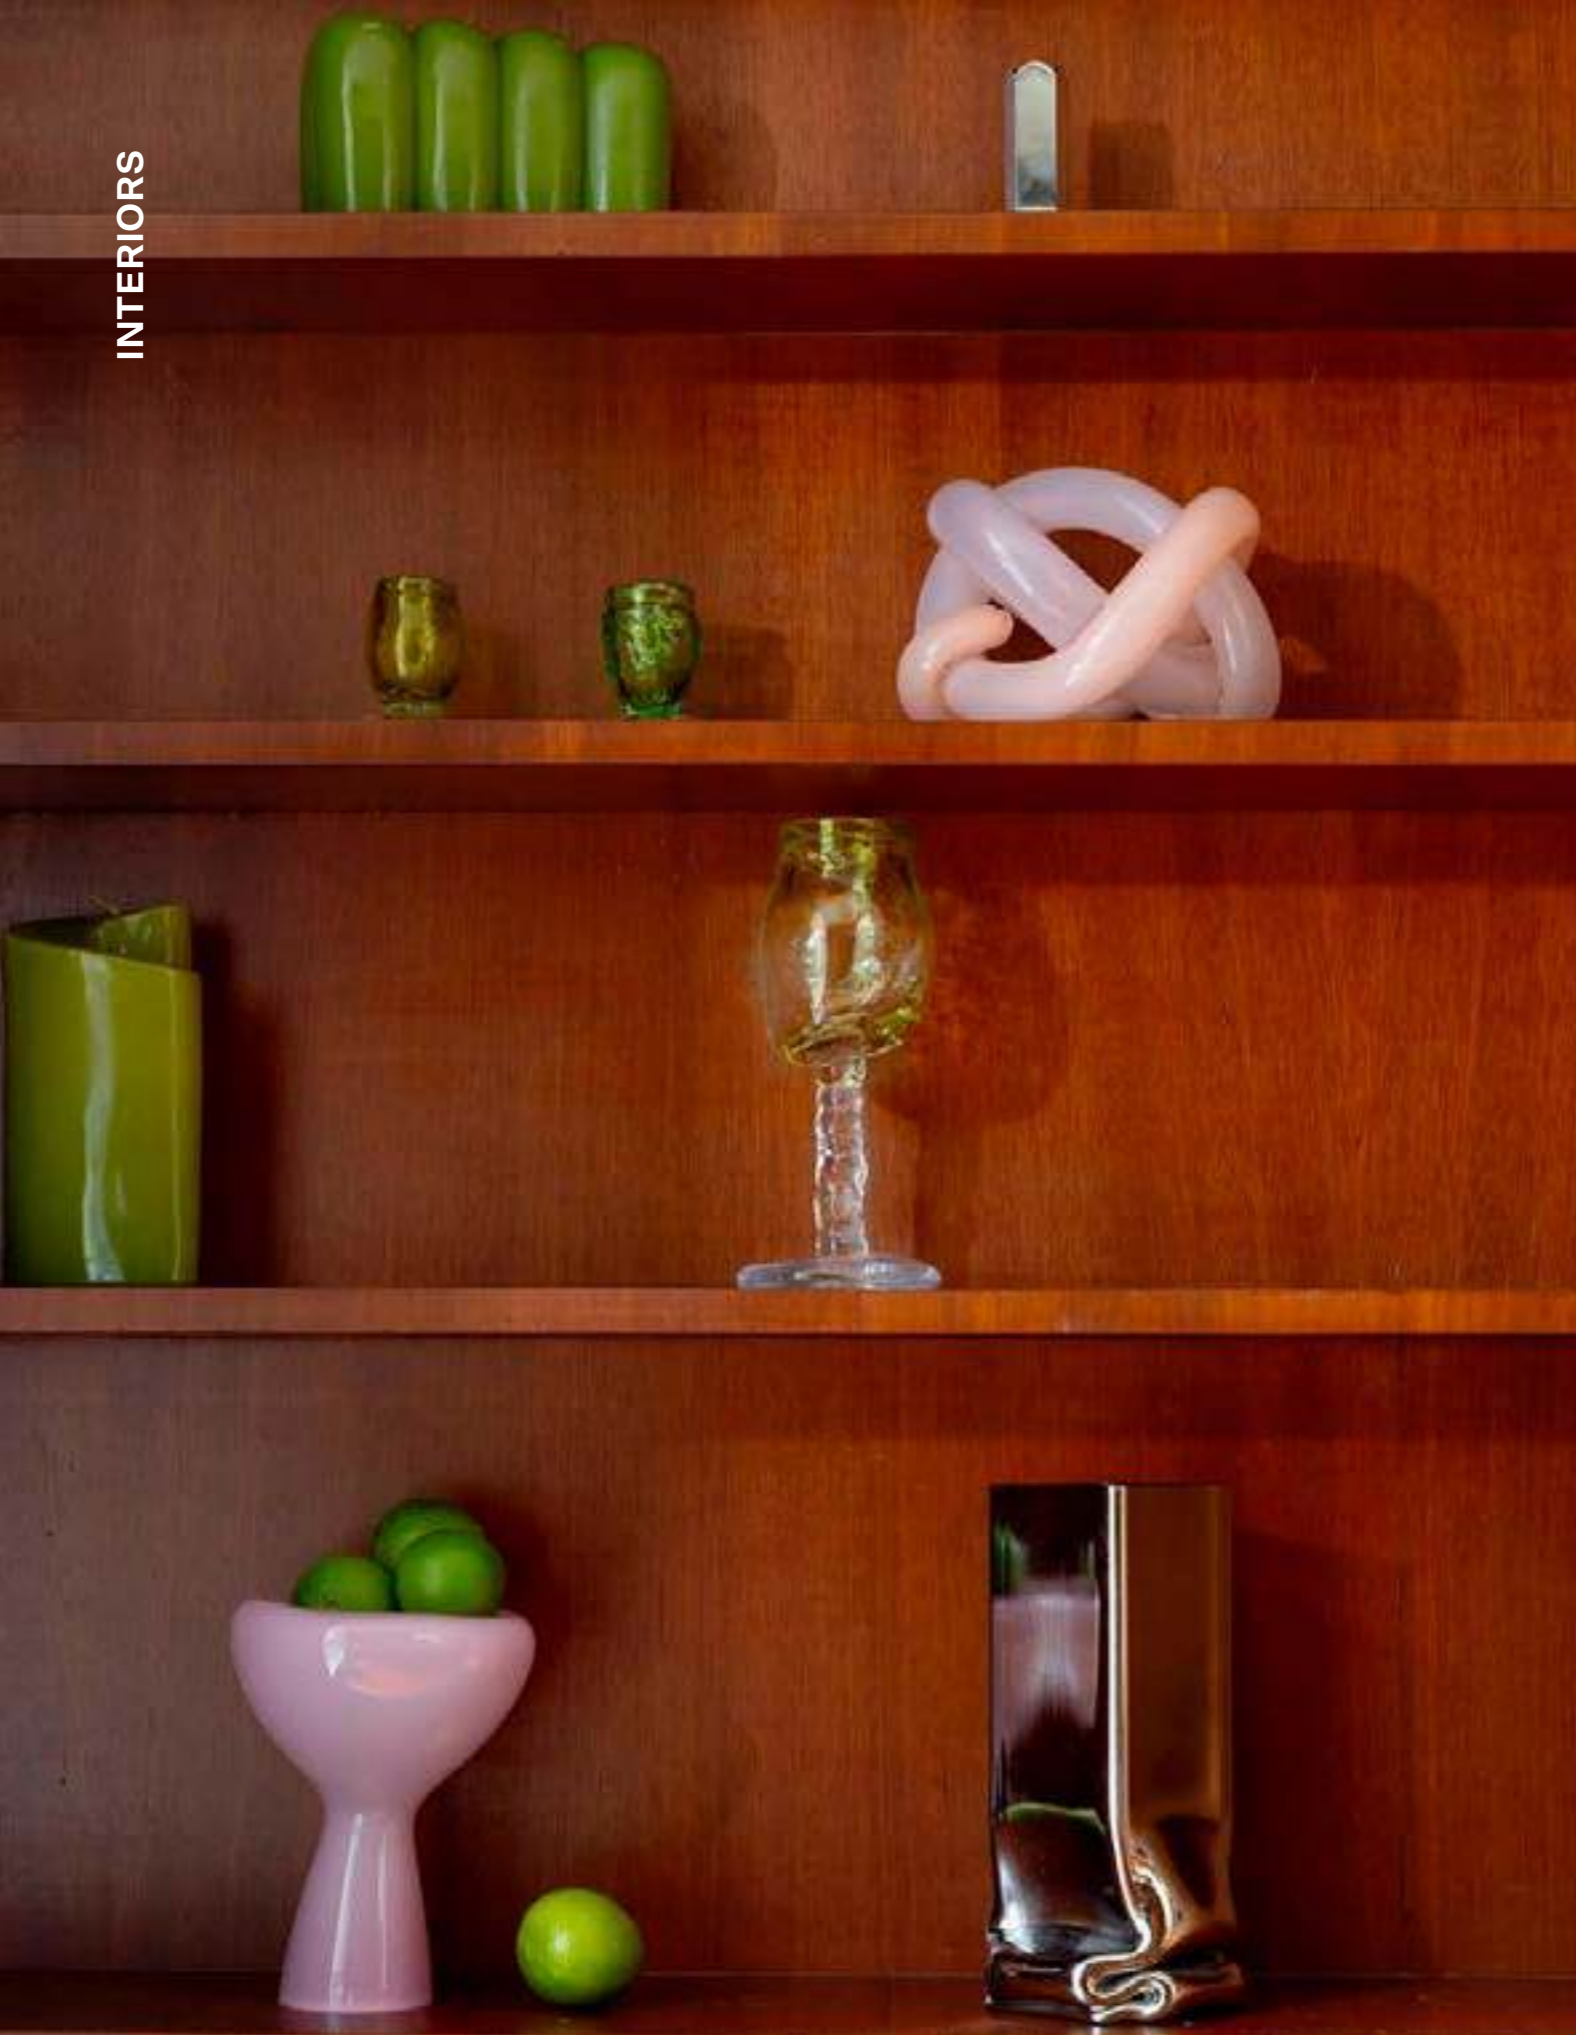

## AQUARIUM MIRROR

Pools of water on the floor reflecting the sky, like windows to another world, served as the inspiration for the **AQUARIUM Mirror**. The three-dimensionality of the mirror and the resulting double reflection enhances the feeling of immersion.

Available as make-to-order.
